SAWQUIP

The SBS36 Towable Bench Saw is a highly efficient and rapid solution for timber cutting applications. It eliminates the need for labor-intensive chainsaws and the associated maintenance, providing a hassle-free alternative. This powerful tool is ideal for firewood cutters, contractors, and property managers, enabling them to complete their tasks swiftly and with ease. Equipped with a 900mm TCT blade, it offers precision and reliability, making it a valuable addition to any cutting operation.
