# SAWQUIP

The PTO36 PTO Driven 3-Point Linkage Bench Saw is a remarkable, fast, and efficient bench saw that harnesses the power of the tractor you have at your disposal. This design allows property managers to bring the saw to the timber. Manufactured to handle even the toughest of timbers, this bench saw offers a smooth and easy operation that minimizes effort and maximizes productivity. It's a reliable solution for property managers and anyone working with challenging wood-cutting tasks, ensuring efficient and effective operation.
