EXCAVATOR SPLITTER

The Splitex 610 Excavator Splitter is an exceptionally efficient and quick attachment, making it an indispensable tool for a variety of tasks. It revolutionizes the firewood process by eliminating the back-breaking manual labor traditionally associated with splitting firewood. This innovative solution is a game-changer for firewood cutters, contractors, and property management professionals, allowing them to split wood quickly and effortlessly, increasing productivity and reducing physical strain.

FEATURES

- > Robust design
- > Reinforced splitting plate
- > Protected hydraulic ram
- > Lifting and splitting
- > Hardox steel wedge
- > Lengthened stroke for bigger splits
- > Supplied with stand
- > Minimal maintenance required

SPECIFICATIONS
